Spartan Spotlight
This week's Spartan Spotlight is...

Amanda Wakefield, who is the vice president of MSU's chapter of the American Society of Landscape Architects.

We asked Amanda: what are the responsibilities of a Landscape Architect?

"Landscape Architects analyze, plan, design, manage, nurture the built and natural environments. Landscape architects have a significant impact on communities and quality of life. They design parks, campuses, streetscapes, trails, plazas, and other projects that help define a community."

We asked Amanda about the ASLA's recent trip to Seattle, WA...

"The goal of the trip was to provide our students with professional development and enrichment opportunities that will enhance their understanding of the field of landscape. Furthermore, to offer students a diverse range of perspectives within the leading industry firms and industry trends in one of the thriving known cities (Seattle, WA)."
