DEMOGRAPHICS REPORT

The purpose of this report is to gather data on a variety of demographic factors on the students within the Associated Students of Michigan State University. The report will give insight into how much of a diverse space the undergraduate student government is, and its comparison to the overall undergraduate student population at Michigan State. The overall goal is to get a picture of how much our student government is a representation of the student body.

METHODOLOGY

Information for this report was gathered through an anonymous survey dispersed to all ASMSU Staff, Class Council, and General Assembly Members. The survey was given online via Google Forms, and outreach was done via email. The survey was completely optional and anonymous. The data was then collected and analyzed within this report.

Questions were created based on reports done in previous years, and were revised and put under review by the Office for Academic and Cultural Transitions as well as the Liaison for Diversity and Inclusion Initiatives and team.
